In some instances, you may miss a scheduled appointment due to unforeseen events including, but not limited to, inclement weather, transportation barriers, a family crisis, etc. for which you were unable to call to cancel in advance. We will record this as a Cancellation if notified of the circumstances by you.
3. If you have one No Show or three Cancellations within a six month period, you will be switched to visits during our established Same Day Visit times.
4. It is important to note that you may schedule Same Day Visits, if this type of scheduling is available and your preference. If you are moved to Same Day Visits as a result of no showing or cancelling appointments, the option to return to Scheduled Appointments for care is available to you after your successful attendance at three Same Day Visits, should this be your preference. You may also choose to continue to schedule Same Day Visits, even if not required to do so.
5. **Late Arrival** is when you arrive up to 10 minutes after your scheduled appointment time. In these events, every effort is made to work you into the schedule. If this is not possible that day due to your preference or provider schedule limitations, the appointment is recorded as a Cancellation and you are rescheduled. If you are waiting more than 10 minutes to be seen, you may cancel and reschedule the appointment.
6. When scheduling an appointment, it is important to let us know if there is a need for language translation, transportation, or other accommodations so that we can identify the appropriate assistance and ensure it is available.

PATIENT PORTAL

AHS uses a Patient Portal to provide patients with timely electronic access to changes in health information, electronic copies of your health record and clinical summaries after each office visit and patient-specific education resources.

- Portal initiatives improve quality of patient care, strengthen preventive care, and promote better and timelier self-care among patients.
- Our patients appreciate having the convenience of being able to contact the practice outside of normal business hours. The use of the Patient Portal has been shown to reduce miscommunication and delays that can sometimes occur with phone calls.
- The patient portal is a website that connects you to your provider by giving you secure access to message your care team and allow you to view your medication history, upcoming appointments, reminders for preventive and follow-up care and health information such as lab results.
- The portal will enable you to ask general and medical questions, update your demographic and insurance information or ask insurance questions, request your medical records and eventually request prescription refills and request appointments.
- The portal will be accessed through the [MyHealthRecord.com](https://myhealthrecord.com) website and the initial invite will be done when you come to the clinic and the front office invites you to the portal by entering your email address.
- An invite will be emailed to you, which you can setup your username and password to access the portal.
- The portal can be accessed by visiting:
<https://myhealthrecord.com/Portal/PatientSecure/MyHealth>

You may notice some inconsistencies in some of the health information.

ADVANCE DIRECTIVES:

Advance Directives are written instructions that express your decisions about the type of healthcare you want to receive in an emergency. Federal law requires that you are informed about Colorado's laws relating to your right to make healthcare decisions. This requirement applies to all adult patients, regardless of healthcare condition. In Colorado, you have the right to create a/an Advance Directive(s) regarding your care and they are defined as follows:

- **Medical Durable Power of Attorney**-names a person you trust to make decisions for you if you cannot speak for yourself.
- **Living Will**- identifies what type of life supporting procedures you want and do not want.
- **Cardiopulmonary Resuscitation (CPR) Directive**- Also known as a "Do Not Resuscitate" order telling providers not to revive you if your heart and/or lungs stop working.

NOTE: For more information about Advance Directives, talk with your healthcare provider. If you are a Medicaid covered Behavioral Health patient, you can get a copy of Colorado Health Partners' policy on Advance Directives by calling the Office of Member and Family Affairs at 303-432-5956 or 1-866-245-1959.

As a patient of AHS, the provider will ask if you have any Advance Directives and make a notation in your health record. If you wish, you may provide a copy and it will be scanned and included as an official document in your health record.

If a provider does not follow your Advance Directive(s) as communicated to AHS, you or your representative may call the Colorado Department of Public Health and Environment at 303-692-2980.
