

# AXIS Health System

## Patients as partners

We engage our patients as partners in their health with a commitment to cultural competency and health equity, ensuring that everyone we care for feels comfortable and welcomed.

## Exceptional healthcare

We support our communities and our patients by delivering high quality, accessible and responsive healthcare.

## MISSION

Axis Health System will make a meaningful difference in the health of Southwest Colorado communities, working to integrate all aspects of healthcare and treat the whole person.

## Compassion for all

We affirm the unique worth of every individual in the delivery of healthcare, and we pledge to treat one another and our patients with loyalty, respect and dignity.

## Culture of change and intrapreneurship

We encourage innovation, creativity and seek out opportunities to lead changes that make a difference in the quality of health and life for our patients.

## Commitment to excellence

We will meet the highest professional and ethical standards, act with integrity in the conduct of our business and not confuse excellence with perfection – understanding that excellence requires both risk and persistence.
