1. Appointment changes can be made by calling the care location (listed above) where your appointment is scheduled. It is important for you to know:
 - Appointments cancelled with less than 24 hours' notice may result in a "no-show" charge; and
 - Two consecutive "no show" appointments may result in appointment restrictions or discharge from our care.
2. When scheduling an appointment, it is important to let us know if there is a need for language translation, transportation, or other accommodations so that we can identify the appropriate assistance and ensure it is available.
3. **Late Arrival** is when you arrive up more than 10 minutes after your scheduled appointment time. In these events, every effort is made to work you into the schedule. If this is not possible that day due to your preference or provider schedule limitations, the appointment is recorded as a cancellation and you are rescheduled. If you are waiting more than 10 minutes to be seen, you may cancel and reschedule the appointment.
4. Children must not be left unattended at an AHS clinic while their parent or guardian is in a care appointment.
5. If someone other than the identified parent or guardian will be accompanying your child for a scheduled AHS appointment, a signed copy of AHS's *Permission for Minors to Attend Appointments without Parent Form* must be signed and witnessed by AHS staff in advance of appointment.

TRANSPORTATION POLICY:

If transportation is a barrier to an appointment, staff may be able to assist you in coordinating transportation assistance to and from appointments at AHS locations.

TREATMENT: to provide the healthcare treatment services you seek/need, to healthcare professionals involved in your care.

PAYMENT: to support billing and collection from appropriate payers. AHS may need to disclose PHI to your insurance company for payment of the associated claim or to tell your payer about recommended or planned services to obtain required prior authorization.

OPERATIONS: activities necessary to support mandated quality of care standards, such as monitoring service quality, staff training and evaluation, required reporting to state or federal agencies, medical reviews, legal actions, auditing functions, compliance programs, accreditation, certification, licensing and credentialing activities.

There are limitations on access and disclosures that are based on the type of treatment and/or the age of the patient. PHI for the patient is protected differently in the following circumstances:

SUBSTANCE USE TREATMENT: The confidentiality of alcohol and drug use patient records maintained by any substance use (SUD) program is protected by Federal law and regulations. This includes the diagnosis, treatment, referral for treatment or prevention of alcohol or drug use (42 U.S.C. 290dd-3 and 42 U.S.C. 290ee-3 for Federal laws and 42 C.F.R. part 2 for Federal regulations). MINORS: Minor patients can consent to AHS substance use regardless of whether the consent of a parent or guardian has also been obtained. Parents or legal guardians of these patients may not have access to their child’s SUD information without written authorization from the patient.

There is an exception, however, permitting the communication of relevant facts to the parents if the program director determines that a minor applicant for services lacks capacity because of extreme youth or mental or physical condition to make a rational decision whether to consent to a disclosure to the parents **AND** there is a substantial threat to the life or physical well-being of the minor applicant or another individual, and the disclosure of relevant facts to the parents may reduce that threat 42 C.F.R.§2.14.

OUTPATIENT MENTAL HEALTH TREATMENT (MINOR CONSENTING):

MINORS 12 YEARS OR OLDER: can consent to AHS outpatient mental health services, if the mental health professional determines that: (1) the minor is knowingly and voluntarily seeking such services, and (2) the provision of psychotherapy services is clinically indicated and necessary to the minor’s well-being C.R.S. §. 12-45-203.5. Notification to the minor’s parent or legal guardian of the psychotherapy services given or needed, with the minor’s consent, or, with the consent of the individual who a court has ordered holds the minor’s therapeutic privilege, is permissible unless notifying the parent or legal guardian would be inappropriate or detrimental to the minor’s care and treatment. It is also permissible if the mental health professional determines that the minor is unable to manage their care or treatment. The mental health professional shall engage the minor in a discussion about the importance of involving and notifying the minor’s parent or legal guardian and shall encourage such notification to help support the minor’s care and treatment.

MINORS 15 YEARS OR OLDER: can consent to AHS outpatient mental health services. When a minor consents, HIPAA states that a parent or guardian’s right to inspect the related medical records depends on state and other federal law 45 C.F.R. § 164.502(g)(3)(ii).

HIV INFORMATION: All Ages: All PHI regarding HIV is kept strictly confidential and released only in conformance with the requirements of Colorado state law 25-4-1404. If the services are under Title X family planning program, parents or legal guardians of these patients may not have access to their child's family planning or obtain information about their minor child's Title X services without their child's written permission (HIPAA 45 C.F.R. § 164.502(g)(3)(ii) and Title X 42 C.F.R. § 59.11).

Prevention, Diagnosis and Treatment for Sexually Transmitted Infections: Health care provided to a minor is confidential; except that the reporting required (Child Protection Act of 1987, part 3 of article 3 of title 19) still applies. If the minor is thirteen years of age or younger, the health care provider may involve the minor's parent or legal guardian. A health care provider shall counsel the minor on the importance of bringing the minor's parent or legal guardian into the minor's confidence regarding the consultation, exam, or treatment CRS § 25-4-409.

MINOR, 15 YEARS OR OLDER, LIVING SEPARATE AND APART: A minor fifteen years of age or older who is living separate and apart from his or her parent, parents, or legal guardian, with or without the consent of his or her parent, parents, or legal guardian, and is managing his or her own financial affairs, regardless of the source of his or her income, may give consent to organ or tissue donation or the furnishing of hospital, medical, dental, emergency health, and surgical care to himself or herself. C.R.S. § 13-22-103(1).

ALLOWABLE PARENT/GUARDIAN ACCESS TO A MINOR CHILD'S HEALTH INFORMATION: If a minor does not consent to applicable services independently and a parent or legal guardian is the signer of these forms, the consenting person has a right to access the patient's PHI.

REQUESTING RESTRICTIONS: You have the right to request a restriction or limitation on the health information AHS uses or discloses about you which does not obligate AHS to agree to your request under any and all circumstances. There are two “request for restriction” scenarios:

1. AHS must agree to your request for restriction when the request is to restrict the disclosure of your health information to a health plan (your insurance carrier) as it relates to healthcare operations if the restriction of health information pertains solely to a health care item or service provided to you and you have paid AHS directly prior to receiving the healthcare item or service. To request this restriction, you must complete and submit the Refusal to Bill Insurance Form. This restriction must be requested on the appropriate form for every service you wish to restrict.

Information regarding how to initiate that review process will be provided in writing at the time of the initial denial.

CHANGES TO THIS NOTICE: Axis Health System (AHS) reserves the right to change the terms of the Notice of Privacy Practices (NPP) and to make the new Notice provisions effective for all PHI that we maintain. AHS will review our Notice at least annually. If we determine at any time that there is a material change to our privacy practices, or there is a change in the law that requires a change in our Notice, we will revise our Notice, date it with the effective date of the revision, post the revised Notice at our sites, then implement the changes (unless a change in the law requires that we implement the change sooner), and provide the revised Notice according to this Policy. A copy of this Notice can be obtained upon request in person during business hours at any AHS location on or after the effective date of any revision. No acknowledgment is necessary for providing a revised Notice to a patient who has received a prior version of our Notice. Patients can also access our revised Notice on our website www.axishealthsystem.org.

ELECTRONIC HEALTH INFORMATION EXCHANGE (eHIE) NOTICE

AHS endorses, supports, and participates in electronic Health Information Exchange (eHIE) through CORHIO (Colorado Regional Health Information Organization) and QHN (Quality Health Network) to improve the quality of your health and healthcare experience. eHIE provides AHS with a way to share (when appropriate) securely and efficiently clinical information electronically with other physicians and health care providers that participate in the HIE network. Using HIE helps all your health care providers more effectively share information and provide you with better care. The HIE network also enables emergency medical personnel and other providers who are treating you to have immediate access to the available medical data about you that may be critical for your care. Making your health information available to your health care providers through the HIE can also help reduce your costs by eliminating unnecessary duplication of tests and procedures.

You may choose to opt-out by informing AHS and signing a CORHIO and/or QHN Opt-Out form or directly through CORHIO or QHN (signed and notarized form must be sent to CORHIO and/or QHN) https://www.corhio.org/library/documents/For_Patients/corhio_opt_out_request_web_updated2.pdf Patients can opt back in anytime by signing CORHIO's or QHN's "Opt-In Form". For additional information visit the CORHIO website: www.corhio.org or QHN website: www.qualityhealthnetwork.org.
